Sonia Kovalevsky was the first major female mathematician and, in honor of her, schools across the nation host an SK-Day to encourage young women to gain more interest in mathematical sciences.

Come have fun, meet other girls, and take part in some cool workshops!

Any middle or high school girls interested in math, 7th-10th graders, are highly encouraged to attend.

Special Thanks to Chapter President, Dana Droz, Vice President, Amanda Colunga, and other chapter members for their tireless efforts to organize this event!
