

Czech Republic: The Struggle of the Free Press - Fake News and Conspiracy Theories

Summer 2024

This program will give students an in-depth look at the crisis facing democracy and the free press, including how readers and journalists alike can combat fake news and conspiracy theories. We will also look at press freedom rankings by country and why the U.S. is dropping in the rankings while the Czech Republic, a democracy for only 35 years, jumped 26 spots in just the past two years. This affects politics, economics, and warfare—on a global scale. It all takes place in a city often ranked one of the most beautiful in the world, with its castles, cathedrals, and cobblestone streets.
