# DIVE INTO RESEARCH

This is an intensive 6 weeks Dive into Research (DiR) for advanced Bachelor and Master's students on combinatorial structures in algebraic statistics and game theory and how mathematical software can be applied to these problems. Students will engage in hands-on research projects, supported by experienced mentors.

Dive into Research (DiR) is an initiative designed to foster network-building across academic generations and to attract talented young mathematicians to the exciting field of combinatorics and its applications.

For applications and more information check the Dresden DiR website.

## ORGANIZERS

Benjamin Hollering  
MPI MIS Leipzig  
Aida Maraj  
MPI-CBG Dresden  
Irem Portakal  
MPI MIS Leipzig

## MENTORS

Danai Deligeorgaki  
Oskar Henriksson  
Carlotta Langer  
Luca Sodomaco  
Maximilian Wiesmann

## RESEARCH ASSISTANTS

Angelo El Saliby  
Yue Jiao  
Elke Neuhaus  
Francesco Nowell  
Niharika Paul

For questions email the organizers at [dresdendir@mpi-cbg.de](mailto:dresdendir@mpi-cbg.de)
